

## BOARDING RELEASE FORM

Date: \_\_\_\_\_

Owner: \_\_\_\_\_

Pet's Name(s): \_\_\_\_\_

Emergency Contact Name & Phone #: \_\_\_\_\_

Diarrhea is common among dogs while boarding due to stress. We will administer an anti-diarrhea medicine (Endosorb and/or FortiFlora) when we see a change in his/her stool. A \$8.50 fee will be charged for the medication and two days of administration. Should the problem persist for more than 24 hours, we will either call your veterinarian for treatment, or submit a fecal sample to the Orrville Veterinary Clinic, Inc. in order to rule out any type of parasite problem. An exam fee will apply.

Minor illnesses can also occur in boarding cats/dogs. These include, but are not limited to, vomiting, coughing, sneezing and skin irritations. These types of problems usually resolve with appropriate treatment. If your dog/cat develops one of these symptoms, a staff veterinarian will be available to examine and treat your dog/cat. Please indicate your preference below:

**Please Pick One Option:**

- I want the veterinarian to examine and treat my dog/cat, and I accept responsibility for any/all costs that may be incurred.
- I want the veterinarian to examine my dog/cat, but call me before providing any treatment.
- I do not want any exam or treatment unless I give specific authorization.

Our policy requires the Bordetella and Canine Influenza Vaccine for all dogs to be given at least 72 hours prior to boarding/grooming. Even with this protection of vaccinations, there is no 100% guarantee that disease can be prevented. Please contact us if your dog is diagnosed with kennel cough or the Canine Influenza Virus.

Payment is required for all services when the animal departs. Payment options are cash, check, money order, Visa, MasterCard, and Discover. **We are open Sundays from 5:00 – 6:00 pm for discharges only. We require that all Sunday discharges are scheduled and prepaid.**

How did you first hear of our facility? Who can we thank? \_\_\_\_\_
